PROFILE SUMMARY

Motivated pre-final year B.Tech student specializing in Computer Science and Engineering (AI & Data Science). Passionate about building intelligent systems using AI, computer vision, and data-driven approaches to solve real-world problems.

EDUCATION

B.Tech in Computer Science and Engineering (AI & Data Science)

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology, Chennai
2023 – 2027

CGPA: 8.18

PROJECT EXPERIENCE

Household Garbage Disposal System

- Developed a system to improve waste segregation, recycling, and reduce environmental pollution.
- Integrated a tracking system to monitor waste collection, segregation rates, and community participation in real time.
- Promotes cleaner surroundings, better public health, and sustainable waste management through efficient monitoring and awareness.

Real-Time AI-Based Sign Language Translator

- Developed a real-time AI-based sign language translator using computer vision to recognize hand gestures and convert them into meaningful text.
- Utilized technologies like MediaPipe and CNNs to ensure accurate gesture detection with instant feedback for users.
- Enhances communication and inclusivity by bridging the gap between deaf and hearing communities.

SKILLS

Programming: Python, C++, Java

Technologies: Machine Learning, Computer Vision, MediaPipe, CNN

Tools: Git, VS Code, Jupyter Notebook

Soft Skills: Problem Solving, Teamwork, Communication

ACHIEVEMENTS

- Solved 100+ coding problems on platforms like LeetCode and HackerRank.
- Actively preparing for product-based company interviews.

CERTIFICATIONS

- Java Programming
- Data Structures and Algorithms
